

FAZL ALI COLLEGE
ANNUAL ADMINISTRATIVE REPORT 2020

Introduction of the College:

Fazl Ali College, founded amidst troubled times on 8th September 1959, stands out as a beacon of intellectual enlightenment for students from all over the State. The College is located about 5 kms away from Mokokchung Town which is the Headquarter of Mokokchung District of Nagaland. With a campus area of about 85 acres and an altitude of 1340 mts, the College is set amidst sylvan surroundings and offers a wide panoramic view of the surrounding countryside. The climate of the place is also very pleasant with temperatures ranging from about 6° C in winter at its coldest to 30° C in summer.

The College was set up in 1959 with the vision and foresight of a few educated men and women who felt the need for a liberal education to enlighten the masses. Nagaland, as a state, did not exist then but the region was under the State of Assam as the Naga Hills District and the insurgency movement then taking place led many young people to boycott schools. However, Fazl Ali College survived these turmoils and with a donation of ₹1 (rupees one) from every household in Mokokchung District and the help of the then Governor, Sir Syed Fazl Ali, the College came into being. When the State of Nagaland was formed in 1963, the Government took over the College as a fully funded Government Institution with retrospective effect from 1st March 1962 and the College has not looked back since then. Thus Fazl Ali College as a full-fledged Government Arts college was set in motion and gradually gained momentum. With the lapse of time, the need arose for the addition of a Science section to the College. In 1983, this became a reality with the addition of the Science stream.

When the College was first set up, it was under Gauhati University offering the IA course. With the formation of North Eastern Hill University (NEHU) in 1974 at Shillong, it was affiliated to NEHU and when Nagaland University (NU) came into being, it transferred its affiliation to NU. Today, the College offers almost all the Arts subjects and most of the established Science subjects. At its inception, the College had 4 Departments, 3 teachers and 43 students. Today, the College has 16 departments, 82 teachers and 949 students.

The pass percentage is one of the highest among the Colleges of Nagaland University. The College has 4 hostels (2 for boys and 2 for girls) with a total capacity of about 140. The intake capacity of the College is around 400 (B.A 300 and B.Sc 100) students.

The IQAC was established on 3rd September 2006 and is working tirelessly to ensure qualitative and quantitative improvement. The IQAC draws the annual action plans and monitors the completion of each planned project and majority of the projected plans have been successfully fulfilled.

Vision:

To develop the College into a hub of multidisciplinary studies and a Centre for indigenous research of National and International Relevance

(To keep up with the contemporary trends in Higher Education and to restructure the organizational academic culture, the College has revised its Vision and Mission statement post 2nd Cycle of Accreditation)

Motto:

The motto of the College is “*Academia Nulli Secundus*” (Second to None in Academics)

Mission:

- To mould students to face the challenges of contemporary society and to possess definite target goals so that they can act as catalyst for socio-economic change.
- To produce students who are ethically sound, creative and second to none in academics.
- To strive towards academic autonomy in order to maintain high academic standards in keeping with the Nation's Education policies
- To expose students to ICT enabled Teaching-Learning processes while maintaining relevant traditional methodologies
- To focus on original and need based research on indigenous resources
- To focus on Nation building by strengthening Community Extension Services and collaborations
- To build and strengthen transparency and decentralization in academic and administrative roles

Best Practices:

Best Practice No 1

- **TITLE OF THE PRACTICE:** “*SEPTEMBER MELANGE*”
- **GOAL:**
September Melange is organized with the main objective of enhancing the curricular activities of students in the college and to help them in developing different aspects of their lives.
- **THE CONTEXT:**
September Melange was launched in the year 2018, initially started as a Three-day event of various competitions and festivities. The idea is to make it the annual festival of the college where students are given the platform to explore and showcase their talents.
- **THE PRACTICE:**
Since its inception, the college had successfully organized the event twice, i.e. “September Melange-I” (from 6th to 8th Sept. 2018) and “September Melange-II” (from 5th to 7th Sept. 2019). The first two days of the festival is filled with various literary competitions, talent expositions, exhibitions and stalls by the students. The third day usually coincides with the college foundation day and thus, the festivities culminate with a formal program while observing the foundation day. Very soon, it is gaining much popularity where the entire college communities come together as one big family and have much fun.
- **EVIDENCE OF SUCCESS:** Many talents among the students could be tapped. This has given them the opportunity for wider exposure and future avenues.

- PROBLEMS ENCOUNTERED AND RESOURCES REQUIRED:

One major issue in organizing the event is the limited financial resource. Since there is no separate budget allocation, managing the three days with minimum financial resource had been a major constraint.

Best Practice No 1

- TITLE OF THE PRACTICE: “Maintenance of Departmental Library”

- GOAL:

To implement, enrich and support the educational system. To provide materials that will stimulate student’s acquisition of factual knowledge, development of literary appreciation, aesthetic values and ethical standards.

- THE CONTEXT:

The FAC Departmental libraries are managed independently from the main library. Materials originally came from faculty donations as well as faculty and student recommendations.

- THE PRACTICE:

Initially, the departmental library came into being when the teaching staffs decided to purchase books and reading materials with the remuneration money from the teaching faculty. Later more donations came from former teachers and alumni and that is how it casually became a trend for the other departments to follow. At present, almost (mention the no of depts.) have their own departmental libraries.

- EVIDENCE OF SUCCESS:

1. Saves money instead of buying the same book for every faculty who might need to reference it. This goes a long way for technical books which are expensive most of the time.
2. Consistent information - The assurance that the team is using the same resource information and therefore not conflicting information while working on a collaborative project.

- PROBLEMS ENCOUNTERED AND RESOURCES REQUIRED:

Since this is a purely teacher’s funded program, the accumulation of books is gradual.

15. Infrastructure development (in brief with photographs)

- a. Internet Leased Line (BSNL)

- b. Earthing/ Lightning arrester
- c. Installation of automatic hand sanitizer

- d. Designing of G-Suite for online Classes

- e. Upgradation of Website design (www.fac.ac.in) Purchase of CPU (i3 core) HP & UPS

- f. RUSA II ongoing construction

- g. Extension of Library
