## **What aspects of this course were most useful or valuable?**

Some of the responses were:

- The practical application
- Presentation skills
- The dedication of the teachers even though we had limited time
- This course is helpful or useful for the studies of the surrounding of our environment, how human relied on natural environment.
- Critical thinking. How to analyse literature and enjoy it more.
- "The most interesting and valuable aspects of the history course were learning how past events connect to the present, understanding different perspectives (like those of women and marginalized groups), developing critical thinking through primary sources, and engaging in discussions that deepened my understanding.
- The most valuable aspect of this course was the hands-on learning and real-life case studies. They helped me understand how to apply theoretical knowledge to practical scenarios. I also appreciated the clear explanations of complex concepts and the opportunity of presentations and discussions which gave me different perspectives
- Enhancing understanding of oneself and useful for various career and personal growth
- Learning about sociological perspectives
- It helps me to think beyond the box and it deed impact the perspective of my knowledge and understanding of the world around.
- It helps in fosters critical thinking, problem solving abilities, and a deeper understanding of the world physical and human system.
- Got to learn new perspectives and Outlook on how society politics or institutions work. In value edition this course is a way of critically shaping and understanding things from different ways. Which an ordinary human would never have interpreted the course shapes the mind and understand how certain things function and works
- Being able to communicate with teachers and students and participate in different activities
- The most useful aspects of a course often include clear learning objectives, engaging content, real- world examples, interactive elements and expert instruction.
- The most useful and valuable aspect of this course were interactive learning and experts instruction which together provide a comprehensive and engaging learning experience
- The most useful and valuable aspect were the interactive learning and experts' instruction which together provide a comprehensive and engaging learning
- To achieved goals for students and inculcate values in order to be the parts of successful future leaders.
- A strong foundation in biology, exploring and connecting theory to real-world scenarios, and inquisitive in learning more about the facts and it's roles. Additional, practical experience like fieldwork and laboratory techniques promotes exchange of knowledge and understanding by interacting with the like-minded individuals.

- This course significantly improved my ability to analyse complex political issues by encouraging me to evaluate evidence, identify biases, and construct logical arguments.
- Learning one's personal aspects, quality education of students as well as freedom to our own rights etc.
- To achieve academic performance, goals for everyone and become successful future leaders, the professional assistance in different field of workplace and enhanced great skills towards the knowledge of learning co-curricular activities and different social community in order to be a part of successful Person in different field of job etc.
- The systematic explanation of concepts and the teacher's willingness to answer doubts. Case studies and real-life geographical examples made the subject more interesting and easier to understand

### **Suggestions for improvements of the course.**

- Debate inside the class room and more interactive class rather than more explanation
- Occasional book reading and discussion. Being a Literature course, it feels only right. To have discussions on your favorite aspects of a book
- Nothing against the teaching faculty but it would be great if the exam branch could become more effective in the near future
- This course was very helpful for me as it helped me think critically and made me curious about everything so political Science as your core paper won't disappoint you at the same the lecturers of the political science department is no less they're very knowledgeable in every aspect and they're always ready to help you out whenever needed.
- "I earnestly hope that more students will develop a strong interest in the field of Chemistry and recognize its significance in both academic and practical contexts. I also encourage more students ( my juniors)to pursue this course, as it offers valuable knowledge and a wide range of opportunities for future growth.
- It was helpful in understanding the structures and Sociological context through the course
- For me taking up English honours was the right choice because I have learnt a lot from many writers and poets and to think critically towards the situation of our lives.
- To avoid rush of incomplete topics, the theory papers and its explanations should start immediately from the reopening of college classes.
- Explanations are great and theory papers are given more importance rather than practicals. But for better understanding and experience, practicals must be taken and given a little more importance than usual.
- Everything is okay but all through out the course of my session interaction was missing and it eventually effected the learning process. A learning environment is crucial for not only presenting answer in a well structured format but even deliberation is equally required in this course in order to understand and analyse things well. I am sad for this reason but I could never say and now it's already late. Even after spending my 3 years I

could rarely grasp knowledge and understand my field of subject minimum and can't remember what I actually learn. So tbh it will be a waste of time and money.

- It will be good if the teachers open up and be more friendly
- This kinds of survey should be given more often to acquire more knowledge for students and to know the learners capabilities
- This kinds of survey should be given more often to acquire more knowledge for students and to know the learners capabilities
- This course was vast compared to other and should be looked into it while comparing to old and new course..
- This course provides a relevant and useful materials which helps me in various learning and stay motivated
- I'm very satisfied to taking education as my cour papers and also thank you for having this (IQAC) evaluations, my cour course is most effective ones it is overall development in education,it provide greater learning skills it was well plan course content It's support students to acquire knowledge in all round development like physically, mentally ,socially and co-curricular activities is most effective in the field of education. Not only that it helping a child learning outcomes like their intellectual skills,communication skills etc. It was good for me keep it up thank you so much.
- Strengthening IT infrastructure, increasing faculty and library resources, and improving student engagement through more interactive teaching methods and practical application
- History is a subject that not only learns about the past but also the present laying the emphasis and comparing the past with the present events overall it is a good subject to be studied as it enrolls almost every subject
- To have more presentations and group activities like group projects and etc.
- More regular classes(Some faculties took only 4-5 classes per semester with study materials provided online)
- Less reading off of projectors,more actual explanation of topics with real life examples and focus more on the fundamental understanding of the topic
- Majority of the classes are spent giving notes;this can be done by just providing the notes online and use the time for more explanation/lectures
- Atleast one test per unit after the completion of the unit
- Teachers can be a little more caring and considerate.
- Teachers should give more guidance to the students. Mentorship should be maintained properly.
- Attention must be given to the mental, emotional and psychological health of students.
- Encourage one another among students and keep it in hand in every situation
- There is no suggestion of my side I just want to thanks for having such (IQAC ) evaluations in our College thank you FAC keep it up .
- This course gave a good foundation in core geographic concepts and was helpful in preparing for higher studies. More use of maps, diagrams, and models in class would enhance understanding. Overall, a great learning experience

## **Conclusion:**

1. The overall satisfaction level of the students regarding Teaching- Learning was very positive.
2. The students were also satisfied with the course that they studied.
3. The respondents agreed that the learning objectives were clear, and that the contents were organized and well planned.
4. Most of the respondents took the course because they were interested in the subject.

## **ACTION TAKEN:**

1. The comments and suggestions made by the students are discussed with the heads of departments and the same is asked to be relayed to the department faculty members.
2. Departments were encouraged to take remedial and tutorials for those students who were lagging behind their peers.
3. Department were allotted a small amount of money to buy requisite books to be kept in the department libraries.

Dated: Mokokchung, 30<sup>th</sup> June, 2025

## **Feedback Committee:**
